

NATIVE TEXANS UNITED

AGAINST THE DOS REPUBLICAS COAL MINE IN DEFENSE OF OUR EARTH - WATER- AIR AND ALL OF OUR RELATIONS

This Native-led action raises the voice of the Earth and her people who object to the desecration of the land, air, and water. The Dos Republicas Coal Mine is destroying the ancestral homelands of many Native groups, thus damaging our sacred lands and over 100 archaeological sites. The mine also threatens the drinking water supply, plants, animals, and the environment of the entire region. The Native peoples of Texas are united in the protection of our Mother Earth. Please join the thousands of Eagle Pass residents who have signed-on in opposition to the Dos Republicas Coal Mine by walking with us on April 16th. This is a Native-led action, but all respectful allies are welcome and encouraged to participate.
